Experience

Director of Technology, Valley Stream UFSD 30; Valley Stream, NY – 2015-present

Serve a district of 1600 students and over 3000 devices, act as district data coordinator for New York State, and manage a team of eleven in support of three schools and two administrative facilities.

Launched Chromebook building-level deployment, MacBooks for teachers initiative, Google Apps for Education district-wide integration, iPad 1:1 pilot program, the district's first app, online and in-person translation services, wireless access point replacement project, and full server refresh/Internet redundancy project as part of my efforts to support our Strategic Plan.

Oversee all aspects of district technology, including network, infrastructure, phone systems/PBXs, mobile device management and deployment, hardware, software, personnel/student management (eSchoolData, Finance Manager, MyLearningPlan, OASYS, Level 0/2) and professional development related to the integration and effective use of classroom technologies.

Created a five year budget that provided for the replacement or refresh of all essential district equipment over the course of that time frame, managed the Smart Schools Bond application and planning processes, and worked to secure funding for new and growing initiatives.

Implementation Management Team Leader, eSpark Learning; New York, NY – 2014-2015

Utilize high level project management skills to supervise a national deployment team responsible for school- and district-level mobile device implementation and deployment for 40,000+ students and 60+ schools.

Deploy and sync thousands of iPads across dozens of schools and districts using wired and wireless methodologies and Apple's Deployment Programs, and using high-level Mobile Device Management proficiency to assist in the integration process.

Assist in the development and management of technology infrastructure for all partners, including oversight of LAN/WAN setups, routers, wireless access points, broadband suppliers, network security, and mobile device management solutions.

Promoted from manager to team leader in six months at a highly competitive education technology company in its growth stage.

Technology Coordinator, Diocese of Brooklyn and Queens; Brooklyn, NY –2012-2014

Worked alongside the superintendent and associate superintendent of one of the largest private school systems in the United States to provide ubiquitous computing rollout planning and support, professional development, and administrative leadership.

Assisted nearly 25% of Diocesan schools in launching or expanding technology initiatives (iPad 1:1, Google Chromebook shared device) over two years.

Trained technology integration coordinators in instructional and information technology skills, and launched district-wide initiatives including Google Apps for Education and school-specific Learning Management System integration.

Consulted on purchasing decisions for nearly one hundred schools servicing over 30,000 students and utilized existing relationships with Apple, Google, Microsoft, and others to solicit RFP responses, procure sample devices, and provide platform-specific professional development and training.

Faculty Advisor of Instructional Technology, Xaverian High School; Brooklyn, NY – 2010-2014

Integrated technology into pedagogy and instruction at New York City's first iPad one-to-one computing school by creating and coordinating regular professional development opportunities, app- and skill-specific workshops, and district outreach.

Led the development of documentation including NYS technology plans, PARCC, CIPA, COPPA, and FERPA compliance, annual technology vision plans, eRate submissions, and grant requests.

Developed and maintained Xaverian's digital presence, including iTunes University courses (our courses have over 50,000 enrolled students), interactive iBooks and e-texts, and network of podcasts.

Conducted observations, tracked one-to-one progress through the collection of qualitative and quantitative data, participated in faculty reviews, and worked as a member of our school's administration in the management of a staff exceeding one hundred teachers.

Assistant Principal, Xaverian High School; Brooklyn, NY – 2008-2014

Assisted in managing a roster of 12-18 teachers as well as administrative, maintenance, and security staffs in a co-educational environment.

Provided professional development, performed regular observations (using the NYSUT observation rubric), served as summer Regents coordinator, and analyzed quantitative and qualitative data including standardized test scores, enrollment numbers, and student surveys to assess program quality, stakeholder satisfaction, and student outcomes.

Developed Annual Professional Performance Review Plans (APPR), NYSTL and FAMIS funding proposals.

Coordinated a remediation program with an enrollment of nearly 400 students from grades 6-12 and assisted the principal in staff and program development, assessment, and strategic planning.

English and Film Teacher/Film Program Coordinator, Xaverian High School; Brooklyn, NY – 2005-2010

Taught Honors English, Film, and Philosophy to classes of up to thirty-seven students at grade levels 9-12.

Middle School Teacher, Good Shepherd School; Brooklyn, NY – 2003-2005

Taught English Language Arts and Social Studies to classes ranging from 24-30.

Education

The College of St. Rose, Albany, NY - SDL certificate, 3.91 GPA. 2016.
